Tangerang Banten 15157

Profile

Fifth-semester Computer Science student at BINUS University with interests in Big Data Processing, Data Analytics, Data Engineering, Data Science, Business Analysis, Ai Engineer, Software Engineering, and Application Development. Experienced in data-driven projects and Roblox game item sales across Indonesian and international marketplaces, with strong communication, time management, and problem-solving skills.

Project Experience

Loan Lending Risk Prediction

School of Computer Science, Binus University

- Developed a big data architecture using **Apache Spark** and **HDFS** for efficient loan data processing.
- Applied **K-Means** clustering with **MySQL** and **Power BI** for customer risk segmentation and visualization.

Loan Customer Risk Data Pipeline

School of Computer Science, Binus University

- Built **Pentaho (Spoon) ETL** transformations and a job from **Big Data SQL** queries, resulting in a clean, reusable pipeline for loan risk data.
- Automated the job via **Carte API** and a daily **Apache Airflow DAG** on **Ubuntu (WSL)**, resulting in a scheduled, successfully running pipeline

Coffee Sales Dashboard

School of Computer Science, Binus University

- Built an interactive Tableau dashboard with time series analysis of monthly, weekday, and time-of-day sales ($112K, 3,547 transactions), resulting in clear insights into demand patterns.
- Found that Latte and Americano with Milk drive 46% of revenue, resulting in actionable guidance for product promotion timing.

Working Experience

Roblox Game Item Seller — Itemku 2020 – Present

- Achieved 20,000+ successful sales of Roblox in-game items across Itemku
- Monitored market prices and competitor trends to develop competitive pricing strategies, while managing product listings, inventory, and order fulfillment.

Education

Computer Science Undergraduate (Streaming Database) at BINUS University | GPA 3.68

Skill

- Coding skill: Programming (C, Python, Java, C++), Front End (HTML, CSS, Tailwind Css React, Vite), Back End (NestJs).
- Big Data Processing / Data Analytics (Python, Spark, Hive), Data Visualization (Power Bi, Tableau), Database Management (PostgreSQL, MongoDB, Mysql), Data Engineering (Pentaho, Airflow)
- Softskill: Teamwork, Problem-Solving, Creative Thinking, Planning

Organizational Experiences

Keluarga Mahasiswa Buddhis Dhammavaddhana (Activities) 2024 - Present

Certifications

- Participation Data Analyst Techfest Binus University 2026
- Participation Data Science Fit Competition 2026

Language

- Indonesia (Native)
- English (Intermediate)
- Mandarin (Basic)
